Silk Renewal Complex™

To create the perfect seamless summer blonde with hues of vanilla and honey.

Natural Level 7 - Pre-existing old blonde foils on the ends of the hair.

To gain this effect, apply 9.2 + 3% on the roots area and extend the colour through to eye level. (Approx 5 inches down the hair shaft).

To the mids section (eye to lip level), apply 20g/0.70oz 9.3 + 20g/0.70oz 9.035 + 60mls 6% (see diagram 1b)

Once the whole head of colour has been applied, mesh the adjoining colour sections together on the blend line by combing with a large wide tooth comb, through the sections.

Process for 30 minutes.

STYLE

Start by prepping the dry hair with a thermal protection and apply a mousse for hold. Dry hair until completely dry with fingers or paddle brush.

Split the hair down from partline through to the nape area. Section each half of the head into 4 equals parts (see diagram 2 a, b, c & d). Place each section of the hair around a large curling tong or straightening iron and twist clockwise until the hair has created a large curl.

Repeat this on all the sections. Once all curled, lightly rake the curls out for a beachy tousled curl. Finish with Firm Holding Spray.

Colour Application
