Technique

Natural Base	5
Global Colour 1	Couture Silk Permanent 4.17 + 3% LH Developer

Steps

1. Section a star shape at the top of the head.
2. Place foil along the outside edge of the star, mix and apply the feature colour.
3. Mix and apply global colour to the centre of the star shape and remaining hair.

Styling: Using a large round brush blowdry hair creating volume at the root area and a rounded finish on the ends. With a curling iron, place movement into the mid-lengths and ends of the hair for a soft curled finish.

Colouring Option 4: This technique can be varied to change the effect of the result. Increase the star outline (thickness) to create bold flashes of colour or decrease the star outline (thickness) for a soft shimmer of colour. Alternatively introduce a 3rd colour to the outer star section for a progression of colour depth or bold contrast dependant on choice of colour.
